

Tech Tip Tuesday— September 15, 2015

by David Hirsch

Affiliate Portal

We'd like to let all of you know that we will soon be introducing a new feature to Livery Coach called "Affiliate Portal". This is being rolled out at one client now, and will soon be available to all. We will provide more details about the sign-up process, costs, and other details in a future tech tip soon.

While many of you have equipped your chauffeurs with mobile devices and our iChauffeur app, what happens when you have to farm a trip out? And, what if that affiliate does jobs for more than one Livery Coach client?

What the Affiliate Portal does is bring the power of the iChauffeur app to your non-Livery Coach affiliates.

The app, which will be available in the app stores shortly, will allow the affiliate chauffeur to log in and see his assigned trips. The status and GPS location will then be fed back to the originating company through the network, so that even if you farm a trip out, your customers can have the same experience as when your own chauffeurs are doing the job.

There will be a nominal cost per trip to the originating company to cover the costs of developing and maintaining the portal, and (mostly) to cover Google map licensing costs. There will be no cost to the affiliate, and no cost for the app.

As part of the process, we have created a new portal, <https://affiliateportal.liverycoach.com>, independent of any single Livery Coach client. Non-Livery Coach clients can register at this portal and receive a unique UserID for their company, which allows them to receive Livery Coach trips on the portal via a process similar to Livery to Livery.

Please stay tuned for more information...coming soon!
