

Tech Tip Tuesday—February 28, 2017

Reminder: Livery Coach User Meeting in Las Vegas—and please RSVP!

Livery Coach will be having our annual users' meeting in Las Vegas the Sunday before the LCT Show. This year, that means Sunday, March 12, 2017, at 2pm, at the Venetian in Delfino 4106 (Level 4, Foyer West). This meeting is open to all Livery Coach customers, and we encourage you to attend, but we really need a headcount. **Please RSVP** with the names of the attendees to news@liverycoach.com.

Thanks!

WAZE

As those of you who are using the chauffeur mobile app iChauffeur are aware, iChauffeur has a MAPS button that passes the routing data to the default device map program so you can use it for navigation.

Typically, the default mapping program is Apple Maps on Apple products (iPad and iPhone), and Google Maps on Android devices.

We are aware that many people like using Waze for navigation. If you would like to use Waze rather than the default map, simply a) make sure that the Waze app is installed on the device, and b) switch the configuration on your iChauffeur to use Waze.

As a reminder, the iChauffeur app does not, and never has, provided any direct navigation—it merely feeds the addresses to the external application. Livery Coach does not make any claims as to the accuracy of the navigation nor the suitability of the route for any specific trip or vehicle.
