

Tech Tip Tuesday—December 5, 2017

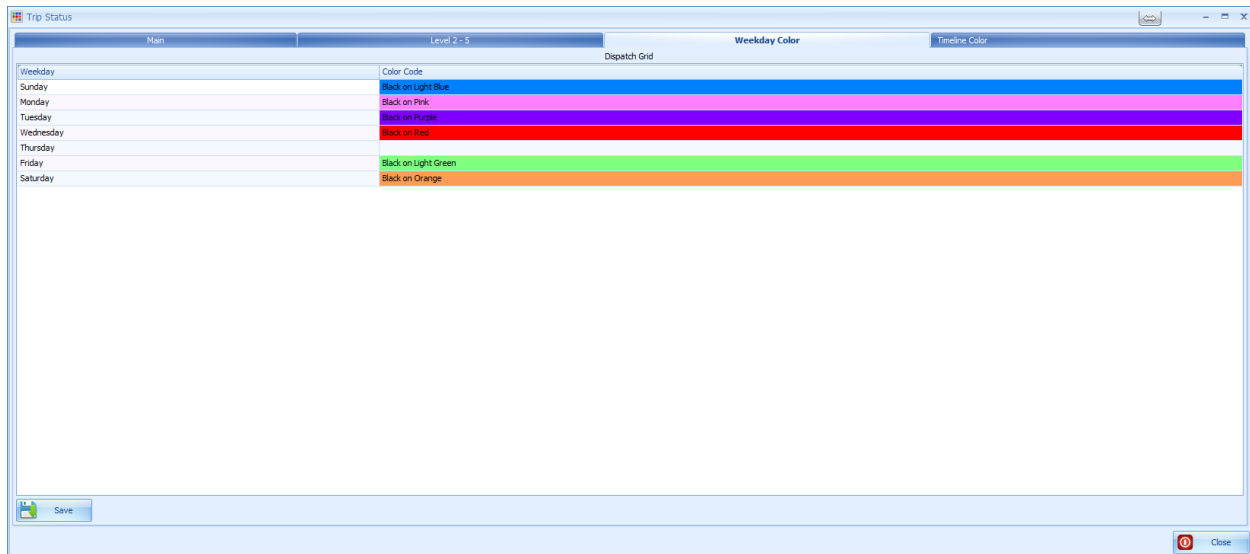

Boot Camp?

We have received quite a few responses to last week's announcement about a potential upcoming boot camp. Chip has been busy researching venues and trying to narrow down the dates—if you have not already responded and are interested, please email bootcamp@liverycoach.com . Thanks!

Day of Week colors on the Trip Schedule

A while back (March 2015) we had a Tech Tip that discussed how you could set up color codes for the Days of the Week on the Dispatch Grid. That way, if you had your date range set to more than one day, it was easy to see where one day ended and the next began.

While that is handy on the Dispatch Grid, what about the Trip Schedule? Well, we've added Day of Week color coding there too. Assuming you've already set up your colors (if you haven't, refer to the March 31, 2015 Tech Tip...but for a quick reminder, navigate to Setup... Maintain... Trip Status Setup... Weekday Color Tab (screen shot below).

Once your colors are set up, it is easy to apply them to the Trip Schedule. Simply click on the Setup button, then click the box next to "Show Day Of The Week Color".
