Driver Manifest

Driver Manifest is a feature that has been in Livery Coach for a long time, but we still run across people who don't realize it's there, or who have forgot, so we thought it would be a good time to highlight the feature.

From the Reservation left menu, Option tree, click on Driver Manifest.

When the Driver Manifest opens, by default it shows you the entire list of chauffeurs, with the ones who have trips highlighted in yellow.

Double-clicking on a chauffeur brings up a Manifest for that day for that chauffeur, which can be printed if desired. Also, double-clicking on a trip line from the open manifest lets you change the status of the trip.

One common use for Driver Manifest is for those companies that dispatch all their trips the day before. When a chauffeur calls in to get his schedule, you can easily tell him what he is doing, and mark each trip “Dispatched” as you go down the line.
